

3 YEAR WARRANTY

TAKES OVER 25 STONE USERS (160kg) 3 YEAR WARRANTY

Accent

Need an extra 2" depth then Accent is the answer.

The Accent has all the characteristics of Access but simply uses a back rest tube set 2" further back on the side frame. Accent has become many Seating clinics chair of choice as it gives better weight distribution than standard chairs thereby not straining the front castors and making manoeuvrability for the carer or user more easy.

- Up to 160kg user weight (over 25 stone)
- 19" Seat depth
- 6 seat widths from 17" to 24"
- Perfect for seating systems allowing better weight distribution than standard chairs
- Available in Black

Choice of options including

- Alternative Wheelbase Position
- Backrest Reinforcer
- Height Adjustable armrests
- Height and Length Adjustable Push Handles
- Anti-tip Stabilisers
- Body Retaining Belt
- Back rest extensions of either 6", 9" or 12"
- Optional back rest angle
- Puncture proof tyres
- 2" Cushion
- Super Head
- Modular height adjustable armrests

Access & Accent due to their immense modularity have potentially in excess of half a million combinations. Prescribing is now even easier with our "all new" simple tick the options prescription forms allowing you to build the chairs you require.

The easy to use prescription form guides you through the process to build the chair that you require for the client. For prescription form and full technical specifications please refer to the RHealthcare Technical Manuals.

These Access wheelchairs are also ideal for portering chairs and are used in many NHS Trust hospitals across the UK. Taking up to 160kg users (over 25 stone). We can personalise the wheelchairs in many ways to suit your needs, sign write the back canvas, add an anti fold bar or flag pole. All ways of making them more visible and more resistant to 'going missing' thereby saving the Trust regular stock replenishment costs.

ACCESS & ACCENT ISO 7176 IMPACT STRENGTH & DYNAMIC TESTS

Transport compatible, crash tested at 48Kmph/30mph
Approved for use with webbing tie down and occupant restraint system (wtors) not clamps, 200,000 cycles two drum, 6,666 cycles kerb drop

As a result of continual product improvement and development, RHealthcare reserve the right to change product specification without prior notice

3 YEAR WARRANTY

Access

The quality modular chair built to match the patients needs

The Access chair has evolved with Wheelchair Service & end user input to become a highly modular wheelchair that is built to meet your specific prescription. The chair can be configured for the Active user through to those less able users who need a chair configured for the carer to safely move them in both indoor and extreme outdoor conditions.

We pride ourselves on our customer focus and after sales service.

Relax with Superhead

Superhead is the highly adaptive headrest system suitable for all standard wheelchairs.

- Suitable for use as head support in a transportable situation.
